

Endourology 1

September 27, 8:20~9:45

(Lecture Room-1 Enyo higashi (East))

Chairpersons: Shin Egawa (*Jikei University School of Medicine*) ,
Koon Ho Rha (*Yonsei University, College of Medicine*)

Speakers:

- Program Number:
1. Impact of previous abdominal surgery on the outcome of laparoscopic radical nephrectomy
In Sik Hwang (*Seoul National University*)
 2. A Novel Technique for Laparoscopic Partial Cystectomy: Cystoscopic Assisted Fine Needle Tattooing with India Ink
Yoon Dong Kim (*Department of Urology, Soonchunhyang University Hospital, College of Medicine*)
 3. Clinical evaluation of surgical treatment for renal tumor: study of 310 cases in Tokai University
Akiko Murota (*Department of Urology, Tokai University, School of Medicine*)
 4. The comparison of three laparoscopic nephron sparing surgeries for the small renal tumors
Hidaka Kono (*Keio university, the department of urology*)
 5. Laparoscopic radical cystectomy. Single institutional experience.
Fuminori Sato (*Department of Urology, Faculty of Medicine, Oita University*)
 6. Laparoscopic partial nephrectomy: useful method of decision making about an approach and surgical method based on the systematic classification of tumor location
Hyuk Sagong (*Department of Urology, Eulji University College of Medicine*)
 7. The factors affecting non-urologic postoperative complication after laparoscopic surgery in urologic area
Sang Hyub Lee (*Department of Urology, Kyunghee University School of Medicine*)
 8. LATERAL VIEW DISSECTION OF THE PROSTATO-URETHRAL JUNCTION TO REDUCE APICAL MARGIN POSITIVITY IN LAPAROSCOPIC RADICAL RPOSTATECTOMY
Hiroshi Sasaki (*Department of Urology, Jikei University School of Medicine*)
 9. Learning Curve of Robot Assisted Laparoscopic Radical Prostatectomy for pathologic T2 disease
Koon Ho Rha (*Department of Urology, Yonsei University College of Medicine*)
 10. Robot Assisted Laparoscopic Radical Prostatectomy: Ultra-dissection
Koon Ho Rha (*Department of Urology, Urological Science Institute and Brain Korea 21 Project for Medical Science, Yonsei University College of Medicine*)
 11. Learning Curve and Preliminary Experience with Laparoscopic Radical Prostatectomy
Seong Ik Bang (*Department of Urology, College of Medicine, Pusan National University*)

Endourology 2

September 27, 9:45~11:00

(Lecture Room-1 Enyo higashi (East))

Chairpersons: Shiro Baba (*Department of Urology, Kitasato University, School of Medicine*) ,
Tae-Kon Hwang (*Catholic University of Korea*)

Speakers:

- Program Number:
12. TRUS-navigated Ho: YAG laser lithotripsy for prostatic utricular stone associated with hematospermia and epididymitis
Noritaka Ishito (*Kurashiki Medical Center*)
 13. Efficacy and Safety of KTP Photoselective Vaporization of the Prostate for the Treatment of Benign Prostatic Hyperplasia: 2-Year Results
Kyungjin Chung (*Department of Urology, Samsung Medical Center, Sungkyunkwan University School of Medicine*)
 14. Novel observation in upper urinary tract by digital flexible video ureterorenoscopy with Narrow Band Imaging (NBI)
Soichi Mugiya (*Department of Urology, Hamamatsu University School of Medicine*)
 15. Long-term results of intraurethral stent made of shape memory alloy (Memokath®) for traumatic urethral disruption
Koichi NAKAJIMA (*Department of Urology, School of Medicine, Toho University*)
 16. The casually successful treatment of ureteral stricture using rigid rear tip of guide wire
Myung Joon Kim (*Department of Urology, School of Medicine, Kyung Hee University*)
 17. Comparison of percutaneous nephrolithotomy and extracorporeal shock wave lithotripsy in the management of ureteropelvic junction stones more than 1cm
Kwang Woo Lee (*Department of Urology, Soonchunhyang University College of Medicine*)
 18. Emergency URSL is more effective than SWL in distal ureteral stones
Sung Dae Kim (*Department of Urology, College of Medicine, The Catholic University of Korea*)
 19. The management of malignant ureteral obstruction with internal ureteral stenting: single center experience
Seung Joon Lee (*Department of Urology, Korea Cancer Center Hospital*)
 20. MR Urethrography versus Conventional Retrograde Urethrography with Voiding Cystourethrography: Obliterative Urethral Stricture
Hong Seok Park (*Department of Urology, Korea University College of Medicine*)
 21. Comparative Study About The Efficacy and Complications of Photoselective Vaporization for Benign Prostatic Hyperplasia Classified by The Volumn of Prostate
Ki Sik Shim (*Busan Veterans Hospital*)

Others

September 27, 11:10~11:50

(Lecture Room-1 Enyo higashi (East))

Chairperson: Masato Fujisawa (*Kobe University Graduate School of Medicine*) ,

Speakers:

Program Number: 22. Effect of Mitomycin C on Experimentally Induced Urethral Stricture in Rats

JU SUNG KIM (*Kwang Ju Christian Hospital*)

23. The Saint Louis University ADAM Questionnaire for Japanese men -reliability and applicability of the Japanese version-

Ko Kobayashi (*Department of Urology, Sapporo Medical University School of Medicine*)

24. The increase in 24-hr urine production/weight causes nocturnal polyuria due to impaired function of antidiuretic hormone in elderly men

Akihide Hirayama (*Department of Urology Nara medical school*)

25. A QUESTIONNAIRE SURVEY FOR SPERM CRYOPRESERVATION BEFORE CHEMOTHERAPY IN JAPAN

Kazutoshi Okubo (*Department of Urology, Kyoto University Graduate School of Medicine*)

26. Risk Factors influencing on Postoperative Renal Function in Living Donor Nephrectomy: The Impact of Dominant Kidney Nephrectomy

Bumsik Hong (*The Department of Urology, Asan Medical Center, University of Ulsan College of Medicine*)

Molecular Urology

September 27, 8:20~9:40

(Lecture Room-2 Enyo nishi (West))

Chairpersons: Takefumi Satoh (*Kitasato University School of Medicine*) ,
Wun-Jae Kim (*Chungbuk National University*)

Speakers:

- Program Number: 27. Immunological and clinical effects of personalized peptide vaccine for HLA-A2 positive patients with hormone refractory prostate cancer
Masanori Noguchi (*Department of Urology, Kurume University School of Medicine*)
28. Aqueous extract of *Phellinus linteus* induces apoptosis in human DU-145 prostate cancer cells
Han Jung (*Department of Urology, Gachon University Gil Hospital*)
29. Effects of α -Lipoic Acid on the Antioxidant system in prostate cancer cells
Jangho Yoon (*Department of Urology, Inje University Busan Paik Hospital*)
30. Identification of novel microRNA targets based on microRNA signature in bladder cancer
Hideki Enokida (*Department of Urology, Kagoshima University*)
31. Purine rich-element binding protein (PUR) alpha as a novel treatment target for hormone-refractory prostate cancer.
Takahiro Inoue (*Kyoto University, Graduate School of Medicine*)
32. Fibroblast growth factor receptor 3 gene mutation is useful urine marker for sensitive detection of non-muscle invasive bladder cancer.
Makito Miyake (*Department of Urology, Nara Medical University*)
33. High-resolution analysis of DNA copy number alterations and gene expression in renal cell carcinoma
Taichiro Yoshimoto (*Department of urology, molecular pathology, Oita University*)
34. EXPRESSION OF ISOFORMS OF PHOSPHODIESTERASE 5 IN TYPE 2 DIABETIC RAT GENITAL ORGANS
Sung Yong Kim (*Hallym University, Kang Dong Sacred Heart Hospital*)
35. Influence of Inflammation and Aging on Macrophage Inhibitory Cytokine-1 Gene Expression in Rat Ventral Prostate
Rikiya Taoka (*Department of Urology, Faculty of Medicine, Kagawa University*)
36. Post-treatment with suberoylanilide hydroxamic acid (SAHA) potentiates the effect of docetaxel in hormone-independent prostate cancer cells
In Gab Jeong (*Department of Urology, Asan Medical Center*)
37. Expression of Nitric Oxide Synthase (NOS) in Rat Bladder Accompanied Short-term Partial Outlet Obstruction
Jaemann Song (*Yonsei University Wonju College of Medicine*)

Oncology Prostate 1

September 27, 9:40~10:55

(Lecture Room-2 Enyo nishi (West))

Chairpersons: Mikio Sugimoto (*Kagawa University*) ,
Se Joong Kim (*Ajou University School of Medicine*)

Speakers:

- Program Number: 38. The Clinical Significance of Transrectal Ultrasonography, Prostate-specific Antigen and Prostate-specific Antigen Density for the Reduction of Unnecessary Biopsies
Hyun Tae Kim (*Department of Urology, College of Medicine, Yeungnam University*)
39. Association between Serum Prostate-Specific Antigen Level and Liver Function Test, Lipid Profile in Healthy Men
June Hyun Han (*Department of Urology, KEPCO Medical Foundation Hanil General Hospital*)
40. Preoperative Serum Sex Hormone-Binding Globulin as a Predictive Marker for Extraprostatic Extension of Tumor in Patients with Clinically Localized Prostate Cancer
Seoung Su Kim (*Seoul National University*)
41. Nomogram for predicting the presence and side of extracapsular extension in radical prostatectomy
Naoya Satake (*Department of Urology, Tokyo Medical University*)
42. PSA half time and PSA doubling time as a predictor of response to androgen deprivation therapy for metastatic prostate cancer
Yong Hyun Park (*Seoul National University*)
43. The safety and usefulness of concomitant prostate biopsy with transurethral prostatectomy in the patients with gray zone PSA
Lee Seung Wook (*Department of Urology, Eulji General Hospital*)
44. Prediction of Gleason Score Upgrading in Low Risk Prostate Cancers Diagnosed via Multi core Transrectal Prostate Biopsy
Byoung Kyu Han (*Department of Urology, Seoul National University Bundang Hospital*)
45. Does Every Patient with High PSA(>100ng/ml) Need Prostate Biopsy?
Young Sig Kim (*Department of Urology, NHIC Ilsan Hospital*)
46. The tumor mapping data filing system for radical prostatectomy specimens in Memorial Sloan Kettering Cancer Center
Yuji Tokuda (*Department of Urology, Faculty of Medicine, Saga University*)

Urogynecology

September 27, 11:05~11:50

(Lecture Room-2 Enyo nishi (West))

Chairpersons: Hiromitsu Mimata (*Oita University*) ,
Young Soo Kim (*Ajou University*)

Speakers:

- Program Number:47. Intraoperative measurement of maximal urethral closing pressure: A new technique for tape tension adjustment during TOT surgery
Hyoung Keun Park (*Dongguk university international hospital*)
48. Sexually dimorphic micturition and the changes after intravesical PGE2 instillation in awake rats
TACK LEE (*DEPARTMENT OF UROLOGY, INHA UNIVERSITY*)
49. TRANSURETHRAL RESECTION OF INTRAVESICAL TAPE AFTER SUBURETHRAL SLING PROCEDURES
Dong-Soo Ryu (*Sungkyunkwan University School of Medicine*)
50. An investigation into the relationship between urinary sensation during cystometry and lower urinary tract management after abdominal radical hysterectomy
Natsui Kawazoe (*Department of Urology, Tsukuba University Hospital*)
51. LAPAROSCOPIC ASSISTED TENSION-FREE VAGINAL MESH FOR SURGICAL CORRECTION OF PELVIC ORGAN PROLAPSE: EFFICACY AND OUTCOME
Ayano Ishii (*Department of Urology, Okayama University*)
52. SEXUAL FUNCTION IN WOMEN AFTER SURGICAL REPAIR WITH TENSION-FREE VAGINAL MESH FOR PELVIC ORGAN PROLAPSE
Tomoko Ohishi (*Department of Urology, Okayama University*)

Oncology Prostate 2

September 27, 13:10~14:20

(Lecture Room-1 Enyo higashi (East))

Chairpersons: Masaaki Tachibana (*Tokyo Medical University*) ,
Sang Eun Lee (*Seoul National University Bundang Hospital*)

Speakers:

- Program Number:53. An Incidence and Anatomy of Accessory Pudendal Arteries on Multi-detector row CT Angiography
Jun Cheon (*Department of Urology, Korea University Hospital*)
54. Quality of life evaluation in patients undergoing cavernous nerve graft reconstruction during radical prostatectomy
Mikio Sugimoto (*Department of Urology, Kagawa University Faculty of Medicine*)
55. The Factor Affecting Radical Retropubic Prostatectomy : Bony Pelvic Shape Imaged by Magnetic Resonance
Jae Sang Joo (*Chonnam National University Medical School*)
56. Lower Urinary Tract Symptoms after Radical Retropubic Prostatectomy: Preliminary Study
Jae Sang Joo (*Chonnam National University Medical School*)
57. Analysis of pT2 subdivisions in TNM staging system for prostate cancer
Sung Kyu Hong (*Department of Urology, Seoul National University Bundang Hospital*)
58. Validation of a nomogram in predicting of seminal vesicle invasion in patients with radical prostatectomy
Kazuhito Matsushita (*Tokyo Medical University*)
59. Related Clinical Factors with Pathologic Discordances between Prostatic Biopsy and Radical Prostatectomy Specimen
Hong Koo Ha (*Department of Urology, College of Medicine, Pusan National University*)
60. PROSTATE SPECIFIC ANTIGEN BOUNCE AFTER PERMANENT IODINE- 125 IMPLANT BRACHYTHERAPY IN JAPANESE MEN: A MULTI-INSTITUTIONAL POOLED ANALYSIS
Takefumi Satoh (*Department of Urology, Kitasato University School of Medicine*)
61. LDR brachytherapy for localized prostate cancer : Clinical outcome of at Okayama University
Tatsuya Uesugi (*the Department of Urology, Okayama University Hospital*)

Oncology Kidney

September 27, 13:10~14:10

(Lecture Room-2 Enyo nishi (West))

Chairpersons: Takashi Saika (*Okayama University*) ,
Moon K. Chung (*Pusan National University Hospital*)

Speakers:

- Program Number: 62. The Association between Obesity-Related Plasma Hemodilution and Tumor Markers Concentration and the Clinical significance Among Healthy Men
Chi Byung Hoon (*Department of Urology, Chung-Ang University College of Medicine*)
63. Impact of Body Mass Index on the Prognosis of Patients Undergoing Nephrectomy for Non-metastatic Clear Cell Renal Cell Carcinoma
Se Joong Kim (*Department of Urology, Ajou University School of Medicine*)
64. Expression of cysteinyl-leukotriene1 receptor in human renal cell carcinoma and growth inhibition by its antagonist
Yujiro Nitta (*Department of Urology, Osaka City University Graduate School of Medicine*)
65. Clinical outcome of combined immunotherapy with interferon- α and low-dose interleukine-2 for Japanese patients with metastatic renal cell carcinoma
Hideaki Miyake (*Kobe University Graduate School of Medicine*)
66. Clinical Outcome of Simple enucleation on pT1a Renal Cell Carcinomas
Byung Ju Sung (*Department of Urology, Kosin University Gospel Hospital*)
67. Effectiveness of Computed Tomography for Predicting Nuclear Grade of Renal Cell Carcinoma
Hyuk Soo Chang (*Department of Urology, Keimyung University School of Medicine*)
68. The relationship between nuclear grade of RCC and the degree of enhancement in contrasted CT
ChoongHee Noh (*Inje University Ssanggye Paik Hospital*)
69. In vitro and in vivo analysis of synergistic antitumor effects of interferon- α on Sorafenib against renal cell carcinoma
Ario Takeuchi (*Department of Urology, Graduate School of Medical Science, Kyushu University*)

Oncology (Bladder, Testis)

September 27, 14:10~15:00

(Lecture Room-2 Enyo nishi (West))

Chairpersons: Taiji Tsukamoto (*Sapporo Medical University*) ,
Jun Cheon (*Department of Urology, Korea University Anam Hospital*)

Speakers:

Program Number:70. Risk Factors of Ileus following Radical Cystectomy

Young-Goo Lee (*Hallym University*)

71. Histologic type, staging, and distribution of germ cell tumors in Korean adults

Dong Soo Park (*Bundang CHA Hospital, Pochon CHA University*)

72. A switch from E-cadherin to N-cadherin expression as a novel predictor for recurrence of superficial bladder cancer

Mototsugu Muramaki (*Kobe University Graduate School of Medicine*)

73. Analysis of tumor recurrence after bladder-preserving therapy for muscle-invasive bladder cancer

Mizuki ONOZAWA (*Department of Urology, Institute of Clinical Medicine, University of Tokuba*)

74. Surveillance policy after inguinal orchidectomy is feasible for stage I testicular cancer. --the retrospective study from the data of Nara Urological Oncology Group : NUORG testicular cancer registration--

Eijiro Okajima (*Nara Medical University Department of Urology*)

75. Multiple biomarkers improve prediction of recurrence and progression in non-muscle invasive bladder tumor

WUN-JAE KIM (*Chungbuk National University*)

76. LAPAROSCOPIC RADICAL CYSTECTOMY WITH EXTRACORPOREAL URINARY DIVERSION : SINGLE CENTER EXPERIENCE

Hyuk-Jin Cho (*Kangnam St Mary's Hospital, The Catholic University of Korea College of Medicine*)
